

Woodfield Community Association, Inc.  
Hurricane Debris Cleanup

October 17, 2024

If you have any tree limb debris that needs to be picked up, please place it on the side of the road. **Do not** place it in bags, as they are unable to collect bagged debris.

Additionally, please note that the county will be picking up debris from all public roads throughout the area.

For those who need immediate assistance, you can take your debris directly to the dump site located at the intersection of East Lake Road and Keystone Road.

Thank you for your cooperation!
